Art and Behavioral Science, Room 307

Instructor: Michelle Bell-Blossom, M.A.   Email: mbellblossom@elcamino.edu

Office Hours: By Appointment Only

Course Description:

Prerequisite: eligibility for English 1A Credit, degree applicable Transfer CSU, UC 3 units

In this course, students analyze the influence of the social environment on behavior and social life using sociological theoretical perspectives. Components of social structure and social culture are critically examined through sociological theories and concepts including socialization, deviance, social institutions, and social change. Inequalities based on issues such as social class, race, ethnicity, gender, and age will also be analyzed.

Course Objectives:

1. Define and describe sociology as a field of study and distinguish it from other disciplines in the social sciences.

2. Explain and apply the sociological imagination as defined by C. Wright Mills.

3. Identify and describe key theoretical perspectives in sociology, including functionalism, conflict, and interactionism. Analyze the strengths and weaknesses of each perspective relative to a variety of social situational circumstances.

4. Identify and analyze prominent classic theorists in sociology, such as Karl Marx, Max Weber, and Emile Durkheim, as well as contemporary theorists, such as Peter Berger, George Ritzer, and Talcott Parsons and their contributions to the field of sociology.

5. Identify the six steps in the scientific method and distinguish between qualitative and quantitative research methods.

6. Evaluate the advantages and disadvantages of research methodologies sociologists use to gather and analyze data.

7. Articulate dimensions of material and nonmaterial culture, including norms, values, and symbols.

8. Classify and define micro and macro elements of social structure, including status, role, social groups, organizations, and institutions.
9. Identify agents of socialization and describe the process of socialization throughout the life course. Explain the “nature vs. nurture” debate and assess socialization theories of human development.

10. Define deviance and social control. Identify and apply theories used to explain deviant behavior.

11. Demonstrate an understanding of sociological concepts relating to social stratification and inequality.

12. Describe major social institutions and evaluate their impact on individuals and groups in American society. Discuss historical and contemporary changes in these institutions.

**Student Learning Outcomes:**

Academic Dishonesty:

Plagiarism and Cheating will not be tolerated! Students are expected to do their own work as assigned. Academic integrity and honesty are some of the most important qualities college students need to develop and maintain. To facilitate a culture of academic integrity, we defined plagiarism and academic dishonesty (Cheating). Due process procedures have been established when plagiarism or academic dishonesty is suspected. A case of alleged academic dishonesty, such as plagiarism or cheating will result in a formal report of the incident to the Dean of Social and Behavioral Sciences and the Dean of Disciplinary Action, and “zero credit” will be earned. Sanctions may be imposed, including academic suspension from the college. Don’t cheat a sk for help!

Absences and Drop Policy: Attendance is Mandatory

If you are absent, be sure to find out about any important announcements that were made during your absence by asking classmates or the instructor before/after class or during office hours.

I MAY drop a student, but it is the student’s responsibility to drop for non-attendance. If you decide you do not want to continue in this class, it is your responsibility to drop the class prior to the drop dates. Failure to do so will result in earned grade. **Suggestions for Success**

Please see me after class or by appointment if you need my HELP! Don’t wait until the last minute to start your assignments or ask for help! Know that attendance is mandatory for your success! Use all student service programs to your advantage!

**Rules for Success**

1. I am worth my HIGHEST goal. I REFUSE to associate with anyone or any place that creates negativity or mediocrity.

2. I DESERVE success, I will walk, talk, think, and act like that successful person I want to be.

3. NOTHING! Absolutely NOTHING, will deter me from my goals.
The French sociologist Emile Durkheim (1858–1917) contributed many important concepts to sociology. His comparison of the suicide rates of several countries revealed an underlying social factor: People are more likely to commit suicide if their ties to others in their communities are weak. Durkheim’s identification of the key role of social integration in social life remains central to sociology today. © 2015, 2013, 2011 by Pearson Education, Inc. All rights reserved.
