Papercutting or paper cutting is the art of paper designs. The art has evolved uniquely all over the world to adapt to different cultural styles. One traditional distinction most styles share in common is that the designs are cut from a single sheet of paper as opposed to multiple adjoining sheets as in collage. Paper cut art appeared during the Han dynasty in 4th century AD after the Chinese official, Cai Lun invented paper in 105 AD. The oldest surviving paper cut out is a symmetrical circle from Silhouette Stencil. Learn how to create your own silhouette Clipart and use it to create a custom stencil for your images. Watch the video tutorial here. Step 1. Open a portrait taken in profile in the photo editor. Use your own shot or find one by searching for #FreeToEdit and #Portrait in the app. Tap on Tool and select the Free Crop Tool. Step 2. Tap on the paintbrush icon and select the Lasso Tool. Tap on “Normal” to view your blending mode options and select “Xor.” This will cut out a portion of your canvas in the shape of your Clipart — your stencil! Step 10. Tap on the plus sign and select Empty Layer. Step 11. Tap on the Add icon and select Photo. Select a picture of a sunset. Step 12. Tap on the layers icon to close the layers drawer.
