The Culture of the New Capitalism is a 2006 book on the economic situation of the time by Richard Sennett, in which the author covers politics, economics, sociology and psychology. Based on the author's Castle Lectures at Yale, the book is a sociological study of the influence of the New Economy on human relationships. Sennett describes the transformations that have taken place in postmodern capitalism as corporations have become more diffuse, unstable, and decentered. Contrasted with the 'iron cage' The New Capitalism. There's next year, and then there's the next decade. Economic conditions in 2009 will be treacherous. There'll be a formal recession in most developed economies, and the economic contraction is highly likely to be more severe in the UK than almost anywhere else. Companies and consumers will continue to tighten their belts. There'll be a sharp rise in unemployment. The extraordinary volatility we've experienced in the price of sterling
