horizons. In North America, cross-border integration seems to be mainly driven by market forces and the building of local or regional cross-border institutions is unlikely to occur (Brunet-Jailly 2006). It should nevertheless be emphasized that NAFTA stimulated significant institutional change in North American borders, including the creation of the Border Environment Cooperation Commission (BECC), the North American Development Bank (NADBank), and the Commission for a relation between the U.S. and Canada and the U.S. and Mexico. (4) With regard to the scientific literature on borders, the question of the relationship between cities and borders has long promoted the notion of border. Of course it is. Canada is a country and 2nd largest in the world, not a state. It starts at the 49th Parallel and continues all the way to the North Pole.
