"I fell asleep standing up, eventually. I was just putting another cassette back on the shelf, and I was feeling great, and I turned round and fell asleep. I fell against the edge of the speaker. Guitarist Keith Richards of the Rolling Stones arrives at Marlborough Street Court, London with girlfriend Anita Pallenberg, 27th June 1973. The pair are charged with possession of cannabis. The Stones were in top form on their legendary 1975 Tour of the Americas, and for a good reason: "[It] was fueled by Merck cocaine," Richards wrote in his memoir, referring to the ultrapure pharmaceutically manufactured form of the drug. "It was when we initiated the building of hideaways behind the speakers on the stage so that we could have lines between songs. Rare and Intimate Pictures of the Rolling Stones. The Stones expect former guitarist Mick Taylor (who quit in 1974) and founding bassist Bill Wyman (gone since â€™93) to come on board for the four shows, but only as guests on a few songs. Richards emphasizes that longtime touring bassist Darryl Jones isnâ€™t going anywhere. Darryl doesnâ€™t get enough recognition, says Richards. He and Bill can talk about songs they want to step in and out of. The Stones are bracing themselves to be asked yet again if this could be the last time. But even if it was, theyâ€™d never tell you. Thatâ€™s not a card, in my opinion, that should be played, says Jagger, who says heâ€™d like to record another Stones album eventually. I know lots of people do play that card, but it nearly always backfires on them. Subscribe to the all-new Rolling Stone!
