China’s extraordinary economic growth and active diplomacy are already transforming East Asia, and future decades will see even greater increases in Chinese power and influence. But exactly how this drama will play out is an open question. Will China overthrow the existing order or become a part of it? The result of these developments, they predict, will be tension, distrust, and conflict, the typical features of a power transition. In this view, the drama of China’s rise will feature an increasingly powerful China and a declining United States locked in an epic battle over the rules and leadership of the international system. Foreign affairs this week. In-depth analysis delivered weekly - Subscribe to our newsletter, featuring our editors’ top picks from the past week. Email. As Brazil’s foreign policy unfolds, be it in the realm of climate change, BRICS, Mercosur or the United Nations, we will have to watch more than ever how the Bolsonaro government’s internal power dynamics evolve.
