Government policy priorities Privatization. II – THE OPERATING ENVIRONMENT Economic environment Trade and investment International trade. Foreign direct investment Infrastructure and utilities. The enactment of the Zambia Development Authority Act in 2006, which stipulated the creation of the Zambia Development Authority, paved the way for a centralized and more rationalized management of investment facilitation and pro-motion functions. It also provided for a generous incentive scheme for investors, both general and sectoral, and endorsed the development of multi-facility economic zones (MFEZ) where investments could flourish. On the whole, a country such as Zambia must not be overlooked by any investor interested in establishing a foothold in this region. Lusaka - Zambia: Government says the high prevailing poverty levels in the country especially in rural areas are unacceptable. Speaking at the Ministry of Community. According to the 2015 statistics, 76.6 percent of Zambia’s rural population live in poverty and 24.4 percent live in urban areas. Once approved, the National Community Development Policy will coordinate multi-sectorial efforts toward poverty reduction in the country. [Read 1,072 times, 1 reads today].
