Thus British policy artificially restricted and slowed down the growth of Indian industries. Furthermore, Indian industries, still in a period of infancy, needed protection. They developed at a time when Britain, France, Germany and the United States had already established powerful industries and could not therefore compete with them. Its policies were determined in Britain and in the interests of British industrialists who forced a policy of Free Trade upon their colony. For the same reason the Government of India refused to give any financial or other help to the newly founded Indian industries as was being done at the time by the governments of Europe and Japan for their own infant industries.
