By comparison, (West) Germany, traditionally oriented towards an intervening welfare state, has been characterised by 'a moderate form of neoliberalism' (van der Wurff 1993; Leaman 2009), although, as many critics notice, it has hardly been immune to deregulation, precarisation of labour and increasing economic polarization (Butterwege 2014). The various indicators of decline in the Germany's national economy are assessed and a prediction is given of the future shape of its political economy. Read more. Article.
