How to turn your Android phone into a spy camera. If you own an Android device, there are a ton of apps you can use to accomplish your camera needs. Getting and installing the software on your smartphone is easy, however, using your camera is a different story. To keep things simple, we recommend you install an app like Alfred, WardenCam, or IP Webcam. All of these are simple, easy-to-use Android apps that work for the majority of devices out there, and they're perfect for what we're trying to do here. All three are free for download from Google Play, but you may have to contend with some ads.

Learn how to use your android phone camera as webcam for all your online video call and chat applications like Skype, MSN or Google+ hangouts. Ip Webcam will now open your camera and start streaming the video to a particular IP address and port. Click on the "How do I connect" button appearing on the top left and choose "I'm using Wi-fi router" to get this IP address and port. You will get some thing like "http://10.42.43.89:8080". Note this address down and type it in your PC web browser. You will get a page with links for various ways in which you can use your new webcam.
