Western philosophy can be divided into six branches that have assumed various importance over time. Traditionally metaphysics sets the questions for philosophy. Epistemology asks how do we know? Ethics and politics have to do with action and quality of life. Aesthetics or value theory has to do with beauty, balance, and harmony. Logic has to do with the relations of things. Epistemology sometimes replaces metaphysics these days, because it has fewer religious overtones. Among Eastern European and…

Bringing Philosophy of Education Back to Philosophy. As a branch of practical philosophy, its practitioners look both inward to the parent discipline of philosophy and outward to educational practice, as well as to developmental psychology, cognitive science more generally, sociology, and other relevant disciplines. The most basic problem of philosophy of education is that concerning aims: what are the proper aims and guiding ideals of education? and issues (p. 5) (e.g., Is the fundamental epistemic aim of education the development of true belief, justified belief, understanding, some combination of these, or something else? In what sense if any can curriculum content be rightly regarded as æobjectiveä? How does philosophy work? ÆPhilosophy takes what seems plain, true and obvious and subjects it to a deeper understanding. ÆGives us the analytical tools to dissect what people do and open it to critical examination. ÆNot just opinion. Philosophy demands rigorous arguments and clear definitions. ÆLogical argumentation used to make cogent points. How does philosophy work? ÆTakes our most fundamental beliefs and principles and demands a justification! ÆInvites us to ask questions! Philosophy of sport (cont.) ÆToday, philosophers approach a wide range of issues, with a wide range of methods (based on the five branches). ÆQuestions up for discussion. ÆWhat is sport? Æ
