Human capital is a term popularized by Gary Becker, an economist and Nobel Laureate from the University of Chicago, and Jacob Mincer. It is also worth mentioning the contributions of Theodore Schultz to this theory. The human capital theory refers to the stock of knowledge, habits, social and Human capital is substitutable, but not transferable like land, labor, or fixed Presidential Address Reflections on Theory, Method, and Practice in. Other labor market policies studied by Levy Institute scholars include the effects of technology on earnings, and the effects of an increase in the minimum wage on hiring practices and earnings. Reflections on the New Deal. View More Employment Policy and Labor Markets Explorations in Theory and Empirical Analysis.
We argue that Labor Market Segmentation theory is a good alternative to standard views of the labor market. Since it is sometimes argued that labor market segmentation theory is untestable, we first consider the uses of theory and the attributes of a good theory. We then argue that labor market segmentation has these attributes. It is internally consistent and is based on plausible assumptions about behavior and technology. More significantly, many of the predictions of the theory have been tested and confirmed. Further, from a dynamic view the theory has done quite well. When the theory has s
