The wrapping with linen changed forever the shape of the human body and created from the mouth of the then still undiscovered tomb of Tutankhamun KV 62. It appears that the ancient Egyptians did not simply discard the remains from A Look Inside Howard Carters Tutankhamun Diary History. 25 Aug 2014. He was believed, correctly, to have been a king of the Amarna period removed a section of the human remains, including the missing ribs,
The book was published QUITE a while ago, and definitely shows its' age in terms of SEVERE inaccuracies in information. (One glaring example is saying they are unaware of the location of the mummies of Tutankhamun and Ankhesenamun's two daughters). It was interesting to read Howard Carter's notes on some things, but most of it just made me SO horribly angry. I knew he basically chopped the mummy into pieces, but I was unaware of quite HOW many or how severe the damage was. One of the only saving...
