From raw dog food to hypoallergenic cat food, we explore what goes into pet food and share advice from top vets. Put us to the test. Our Test Labs compare features and prices on a range of products. Try to avoid dog foods where the first listed ingredient is labelled as ‘animal derivative’ or ‘meal’ as these products are much lower in quality. Some dog foods are marketed as ‘complete’, meaning they contain all the nutrients an animal needs, while others are complementary, meaning they should be given to your pet alongside a complete food. All complete foods have to meet certain feeding requirements, so your dog should be getting all the nutrition that it needs, regardless of how much the product costs. There are so many dog foods to pick from, can you help me find the best one for my pet? We truly wish we could take the time to search the many dog foods on our website to help you find one that meets your pet’s special needs. However, the Dog Food Advisor was never designed to provide custom services of this nature. What’s the best way to pick one myself? Why not limit your search to the 3, 4 and 5-star products we’ve already screened from the thousands of recipes currently available. Or for help finding a special type, see our Best Dog Foods page for links to some of our suggested products.

Identifying the best foods for your dog. What characterizes top dog food brands? How to decipher dog food labels?

Choosing between canned or dry dog food. Different types of food for young and adult dogs. In order to achieve that, the food ingested by dogs plays one of the main roles. The chosen food should provide enough nutrients and the necessary energy needed for the pet’s body to function properly. In dogs, the energy requirements differ depending on breed, lifestyle, and activity level, so making a list of top dog foods that applies to every dog is almost impossible. Therefore, a pup’s diet must be in harmony with its development stage, physiological or pathological condition and so on.
