Overview. Load is not a single moment in time, it's an experience that no one metric can fully capture. There are multiple moments during the load experience that can affect whether a user perceives it as "fast" or "slow". --- Paint Timing spec. The Time to Interactive (TTI) metric measures how long it takes a page to become interactive. "Interactive" is defined as the point where: The page has displayed useful content, which is measured with First Contentful Paint. from time to time definition: sometimes, but not regularly: . Learn more.Â (Definition of from time to time from the Cambridge Academic Content Dictionary © Cambridge University Press). Browse. from the sublime to the ridiculous idiom. Time to Time Lyrics. [Verse 1] I'm scared to be scared You're messing with my head And i just dare you to care tryna loosen up the knots 'Cause I'm always there, I swear But you're fucking with my head And I just hope that you're aware of all the things you've said Still get drown into your games While.Â [Hook] And on my mind from time to time And thinking bout' the times, when you were mine But I left it all behind, and never give a sign See I know that we might losin' when i'm out of line.
